

UNIVERSITY OF COLOMBO, SRI LANKA

UNIVERSITY OF COLOMBO SCHOOL OF COMPUTING

DEGREE OF BACHELOR OF INFORMATION TECHNOLOGY (*EXTERNAL*)

Academic Year 2018 – 1st Year Examination – Semester 1

EN1301 – Personal Computing

Multiple Choice Question Paper

06 May, 2018

(ONE HOUR)

Important Instructions:

- The duration of the paper is **1 (One) hour**.
- The medium of instruction and questions is English.
- The paper has **25** questions and **09** pages.
- All questions are of the MCQ (Multiple Choice Questions) type.
- All questions should be answered.
- Each question has 5 (five) choices with one or more correct answers.
- All questions carry equal marks.
- There is a penalty for incorrect responses to discourage guessing.
- The mark given for a question will vary from 0 to +1(*All the correct choices are marked & no incorrect choices are marked*).
- Answers should be marked on the special answer sheet provided.
- Note that questions appear on both sides of the paper. If a page is not printed, please inform the supervisor immediately.
- Mark the correct choices on the question paper first and then transfer them to the given answer sheet which will be machine marked. **Please completely read and follow the instructions given on the other side of the answer sheet before you shade your correct choices.**
- Calculators are NOT Allowed.

01) The OpenOffice software suite includes,

- | | | |
|--------------|-----------|------------|
| (a) Excel. | (b) Base. | (c) Paint. |
| (d) Impress. | (e) GIMP. | |

02) Consider the following statements.

- I. System Software manages system resources and provides a platform to run application software.
- II. Photoshop is an example of system software.
- III. A system cannot run without application software.

Which of the above statements is / are true regarding computer software?

- | | | |
|-------------------------|--------------------------|------------------------|
| (a) (I) Only. | (b) (II) Only. | (c) (I) and (II) Only. |
| (d) (I) and (III) Only. | (e) (II) and (III) Only. | |

03) Which of the following options in OpenOffice.org Writer can be used to personalize a wedding invitation card to 500 recipients?

- | | | |
|----------------------------|------------------------|-----------------------|
| (a) Bibliography Database. | (b) Mail Merge Wizard. | (c) Table Properties. |
| (d) Object. | (e) Cross Reference. | |

04) Consider the following functions in OpenOffice.org Writer.

- I. Hyperlink.
- II. Formatting Mark.
- III. Macro.
- IV. Formula.

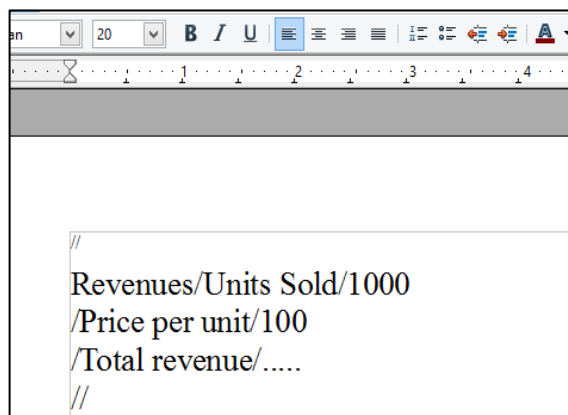

Which of the above functions is / are used automate tasks that need to be performed repeatedly?

- | | | |
|-------------------------|--------------------------|-------------------------|
| (a) (I) Only. | (b) (III) Only. | (c) (I) and (III) Only. |
| (d) (II) and (IV) Only. | (e) (III) and (IV) Only. | |

05) Which of the following statements is/are correct regarding OpenOffice.org Writer document?

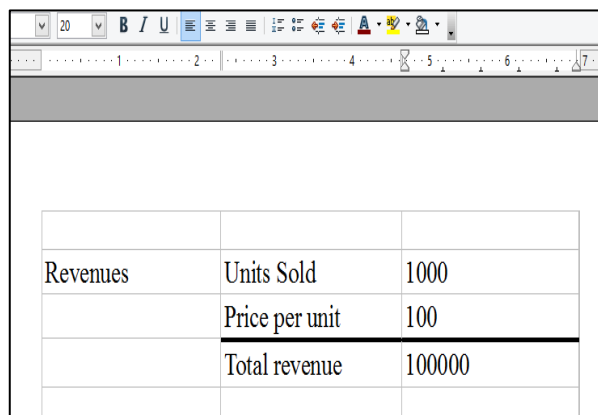

- | |
|---|
| (a) Changes to a particular document can be tracked by enabling, 'Record' option in 'changes' sub menu. |
| (b) A tab stop can be moved directly by dragging the tab mark on the ruler to the desired position. |
| (c) 'Indexes and Tables' option can be used to create a user-defined index. |
| (d) Once a document is saved, one cannot save the same document using another name. |
| (e) A picture added to the document can be either flipped vertically or horizontally. |

Consider the following text segment shown in Figure 1 and the Table format shown in Figure 2 to answer questions 06 and 07.

```
//
Revenues/Units Sold/1000
/Price per unit/100
/Total revenue/.....
//
```

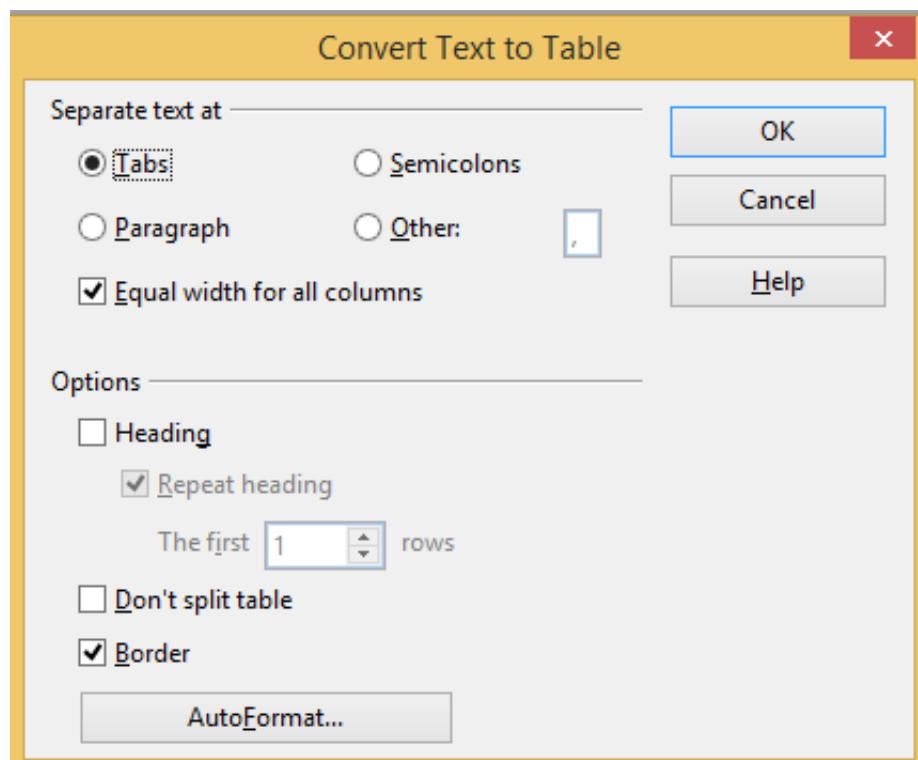

Figure 1

Revenues	Units Sold	1000
	Price per unit	100
	Total revenue	100000

Figure 2

06) Consider the following “Convert Text to Table” option window.

Convert Text to Table

Separate text at

☒ **T**abs ☐ Semicolons

☐ Paragraph ☐ Other: []

☒ Equal width for all columns

Options

☐ Heading

☒ Repeat heading

The first rows

☐ Don't split table

☒ Border

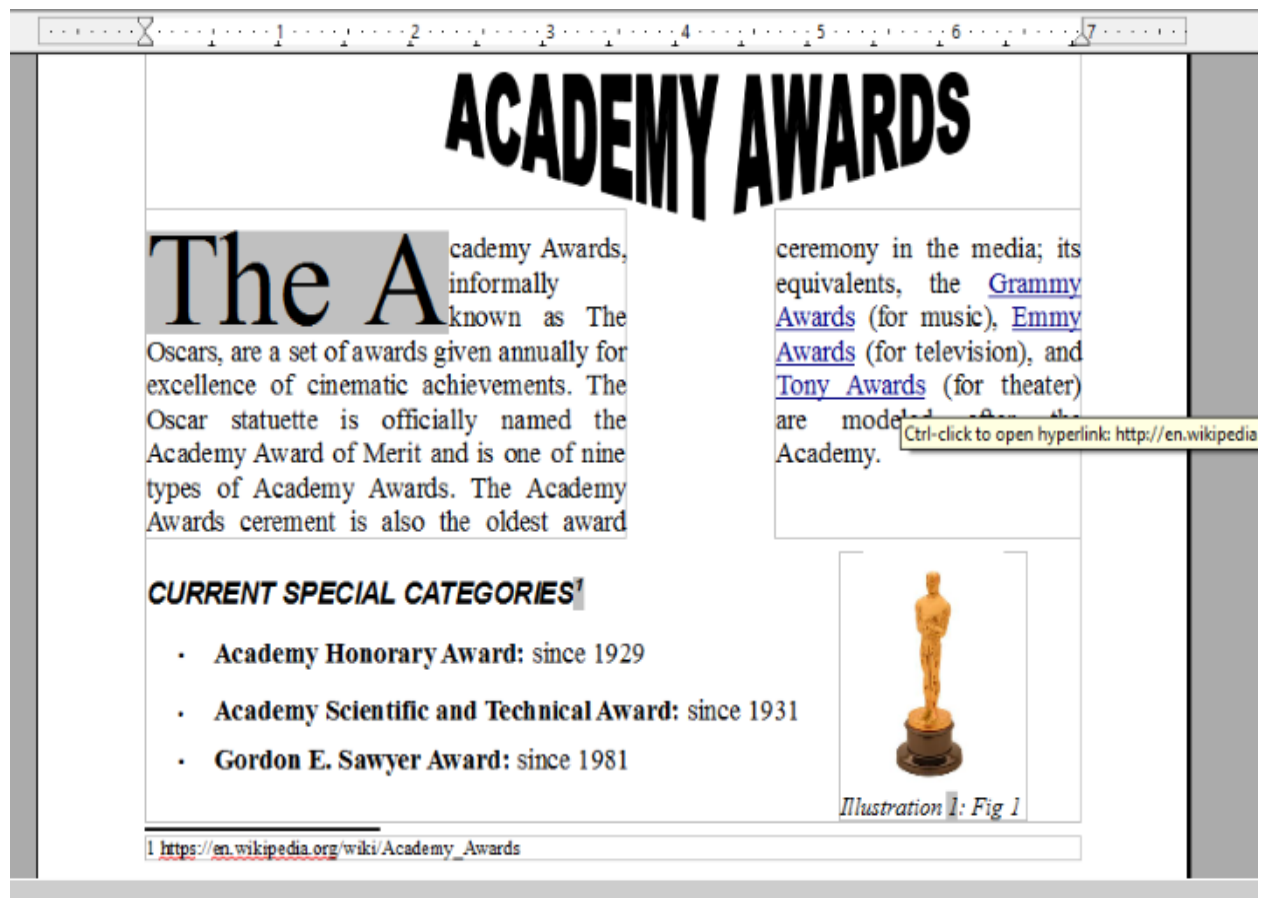

Which of the following options in “Convert Text to Table” should be selected to convert the text segment (Figure 1) to the table format (Figure 2) in OpenOffice.org Writer?

- | | | |
|------------|------------------------|----------------|
| (a) Tabs. | (b) Semicolons. | (c) Paragraph. |
| (d) Other. | (e) Don't split table. | |

07) Which of the following formulae can be used to calculate the ‘Total revenue’ in the converted table format shown in Figure 2?

- | | | |
|-----------------|----------------|-----------------|
| (a) =1000*100 | (b) =<C2:C3> | (c) =mul<C2:C3> |
| (d) =pow<C2:C3> | (e) =<C2>*<C3> | |

Consider the following document segment created in OpenOffice.org Writer to answer questions 08 and 09.

08) Which of the following list of options is/are used to design the above document?

- (a) Footer, Shapes, Table, Text, Drop Caps.
- (b) Drop Caps, Font Work, Bullets, Columns, Cross Reference.
- (c) Caption, Text box, Image, Highlighting, Page Border, Header.
- (d) Footnote, Bullets, Columns, Font Work, Drop Caps.
- (e) Sections, Fields, Font Work, Table, Caption.

09) Identify the character formatting technique(s) applied in the above document.

- | | | |
|--------------------|------------------|----------------|
| (a) Strikethrough. | (b) Superscript. | (c) Hyperlink. |
| (d) Embossed. | (e) Capitals. | |

Consider the following spreadsheet segment created using OpenOffice.org Calc to answer questions from 10 to 13.

	A	B	C	D	E
1					
2	Salary Details				
3	ABC Company Ltd				
4					
5	Name	Department	Basic Salary	Age	
6	C	Finance	25,000.00	30	
7	B	Finance	40,000.00	40	
8	F	HR	40,000.00	44	
9	E	HR	60,000.00	55	
10	G	HR	80,000.00	34	
11	A	IT	30,000.00	35	
12	H	IT	30,000.00	45	
13	D	IT	50,000.00	45	
14	I	IT	50,000.00	34	
15					
16	max Salary		80000		
17	min Salary		25000		
18					
19		Finance	=SUMIF(B6:C14;B19;C6:C14)		
20		HR			
21		IT			
22					

10) What would be the output in Cell C19?

- | | | |
|------------|------------|-------------|
| (a) 2 | (b) 65000 | (c) Err:511 |
| (d) 405000 | (e) #NAME? | |

11) How would you change the formula given in C19 to be able to copy it into C20 and C21 using the copy fill handler?

- | |
|---|
| (a) =SUMIF(B6:C14;B19;C6:C14) |
| (b) =SUMIF(\$B\$6:\$C\$14;B19;\$C\$6:\$C\$14) |
| (c) =SUMIF(\$B\$6:\$C\$14;\$B\$19;\$C\$6:\$C\$14) |
| (d) =SUMIF(B\$6:C\$14;B21;C\$6:C\$14) |
| (e) =SUMIF(\$B7:C19:\$C15;B20;\$C7:\$C15) |

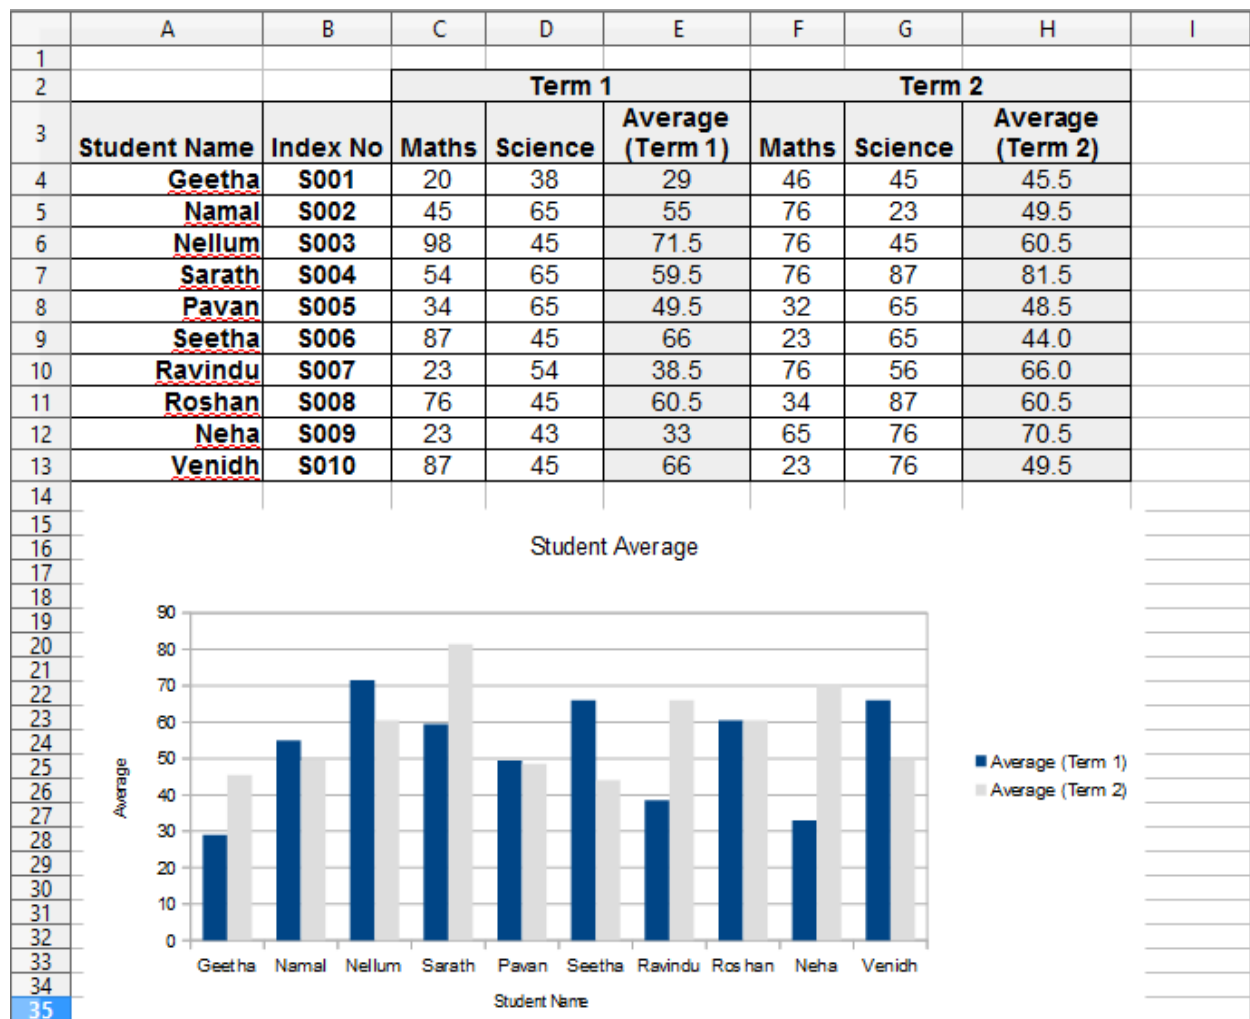

12) Which of the following formulae can be used to calculate the value derived in Cell C16?

- | | | |
|------------------------|----------------------|------------------|
| (a) =MAX(C6;C7;C8:C14) | (b) =MAXIMUM(C6;C14) | (c) =MAX(C6:C14) |
| (d) =MAX(C6 ; C14) | (e) =MAXIMUM(C6:C14) | |

13) Which of the following features in OpenOffice Calc can be used to color the cells in which the basic salary is greater than or equal to 40000?

- | | | |
|----------------------|-----------------------------|------------------------|
| (a) Format Cells. | (b) Conditional Formatting. | (c) Format Paintbrush. |
| (d) Format as Table. | (e) Styles and Formatting. | |

Consider the following spreadsheet segment created using OpenOffice.org Calc to answer questions 14 and 15.

- 14) Which of the following data ranges should be selected to generate the given graph?

(a) A3:H13	(b) E3: H13	(c) A3:A13;E3:E13;H3:H13
(d) A4:H13	(e) A4:A13;E4:E13;H4:H13	

- 15) Which of the following techniques/options is/are applied to generate the spreadsheet as shown above?

(a) Pivot Table.	(b) Legend.	(c) Alignment.
(d) Auto Filter.	(e) Merge Cells.	

- 16) The 'Presentation Wizard' dialog box which pops-up when creating a new presentation in OpenOffice.org Impress allows one to

(a) create a presentation using a pre-existing template.
(b) select a slide design.
(c) select the slide transition.
(d) enter entire number of slides for the presentation.
(e) insert the header, footer and the slide numbers.

- 17) Which of the following is/are correct regarding having a ‘variable date and time’ as a footer when creating a slide presentation using OpenOffice.org Impress?

- (a) OpenOffice.org Impress does not allow to insert a variable date and time.
- (b) Displays the date specified by the user.
- (c) Displays the date on which the slide presentation was created.
- (d) This can be applied without applying it to the first / title slide of the presentation.
- (e) Displays the date on which the presentation is opened.

- 18) The “Slide Master” in OpenOffice.org Impress allows one to

- (a) add a logo image to each and every slide in the presentation.
- (b) add a common footer to all slides.
- (c) display an entire image as a slide background.
- (d) change the slide design of the current slide.
- (e) display the author name in all slides or in the current slide that is based on the slide master.

- 19) Which of the following statements is/are correct regarding the following two screen shots of the table created in OpenOffice.org Base

Field Name	Field Type	Description
IndexNo	Text [VARCHAR]	
Name	Text [VARCHAR]	
email	Text [VARCHAR]	

Field Name	Field Type	Description
IndexNo	Text [VARCHAR]	
Name	Text [VARCHAR]	
email	Text [VARCHAR]	

Field Properties	
Length	5
Default value	C
Format example	C

Field Properties	
Entry required	No
Length	50
Default value	@abc.lk
Format example	@abc.lk

- (a) An error will be prompt when trying to save this table.
- (b) “B0002” will be accepted as a valid index no when entering data to this table.
- (c) “@abc.lk” will be displayed at the time a new record is entered.
- (d) One can proceed to enter a new record without entering the “email” field.
- (e) One can proceed to enter a new record without entering the “Index No” field.

- 20) Which of the following statements is/are correct regarding creating reports using “Use Wizard to Create Reports” in OpenOffice.org Base?

- (a) It lets one to group records in a report based on the values in one or more fields.
- (b) The layout of the generated report cannot be modified once the report was created.
- (c) Existing query tables can also be used in generating reports.
- (d) A static report can be created, always to display the same data from the time when the static report was created.
- (e) When creating the report it does not allow to sort data based on different fields.

- 21) Consider the following “Student” and “Marks” tables created in OpenOffice.org Base.

	IndexNo	Name
	1	Malith
	2	Charith
	3	Prabath

	Index No	Subject	Marks
	1	Arts	89
	1	Maths	56
	1	Science	75
	2	Arts	13
	2	Maths	67
	2	Science	15

Which of the following outputs can be expected once the following query is executed?

Diagram showing the relationship between **Student Details** and **Marks** tables. A line connects the **IndexNo** field in **Student Details** to the **Index No** field in **Marks**.

Field	Name	Marks	Subject
Alias			
Table	Student Details	Marks	Marks
Sort			
Visible	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Function			
Criterion			'Maths'
Or			

- (a)

Name	Marks
Malith	56
Charith	67
- (b)

Name	Subject	Marks
Malith	Maths	56
Charith	Maths	67
- (c)

Name	Marks
Malith	89
Malith	56
Malith	75
Charith	13
Charith	67
Charith	15
- (d)

IndexNo	Name	Marks	Subject
1	Malith	56	Maths
2	Charith	67	Maths
- (e) An error message will be displayed.

22) Consider the following graphic designed using GIMP.

Which of the following tools is/ are used to design the above graphic?

- | | | |
|------------|------------------|-------------|
| (a) Shear. | (b) Perspective. | (c) Rotate. |
| (d) Flip. | (e) Scale. | |

23) The “Measure” tool in GIMP is used to measure the

- | |
|---|
| (a) distance between the original point and the mouse pointer, in pixels. |
| (b) brightness of the image. |
| (c) angle, in every quadrant, from 0° to 90°. |
| (d) pointer coordinates relative to the original point |
| (e) RGB value. |

24) The “Create a new image” dialogue box in GIMP lets one to

- | |
|---|
| (a) select predefined values for the image using template option. |
| (b) specify the width and the height of the image. |
| (c) specify the background color used for the image. |
| (d) select its physical size when it is printed (X and Y Resolution). |
| (e) change the orientation of the image (vertical / Horizontal). |

25) Which of the following tools can be used directly to transform Image 1 to Image2.

Image 1

Image 2

- | | | |
|-----------------------|---------------------|----------------------|
| (a) Rectangle select. | (b) Eclipse Select. | (c) Scissors Select. |
| (d) Free Select. | (e) Healing. | |
