<b>ANSWER IN</b>	I HIP ROX					
onsider the follow						

A programmer planted a computer virus in his employer's computer system which wiped off all the payroll records. It was activated as a time bomb, doing its damage two days after he was fired. The program was written to search for his name among pay-roll records and if not found to activate the time bomb, thereby deleting all the records.

Describe briefly the section of the Computer Crimes Act No. 24, 2007 of Sri Lanka under which the above action can be found guilty of a computer crime.
